Re: Technology and Web Developer

In May 2022 I completed my Bachelor's Degree in *Information Networking & Telecommunications* at FHSU with a concentration in *Web & Mobile Application Development*. During my degree program and my professional career, I've gained a great deal of knowledge and experience which I believe will make me an asset to your organization.

In May 2023, I started a position at Walton's as the Web Administrator. During my employment at Walton's I have gained valuable experience and knowledge in the work field as a Web Administrator.

While I've enjoyed my past professional experiences, my next step will be toward my future career goals in web and applications development. This opportunity feels like the right fit.

I look forward to the chance to meet with your team!

Sincerely,

James D. Helms
